Business Name: **Watershed Premium Wines**

Watershed Premium Wines is a producer of premium wines made from grapes grown in our Margaret River vineyards. We recognise the expectations of our own staff, suppliers, customers and the community in relation to environmental protection and product quality.

We commit to managing our environmental effects and wastes in compliance with our legal obligations.

Our business uses Freshcare Environmental Winery to assist with the implementation of responsible environmental management practices.

We are committed to meeting the requirements of the Freshcare Code of practice Environmental Winery and certification rules and to ensuring we safeguard the natural environment in which our business operates.

Furthermore, we will strive to continually improve all our operations and specifically commit to:

- Work to achieve the environmental expectations of our staff, customers, suppliers and local community.
- Apply best practice standards for environmental management.
- Improve efficiency of operations to minimise water and raw material use, energy consumption, waste and pollution generation; in particular to:
 - Look for cost effective ways to reduce energy consumption and look at ways to harness the environment for energy generation
 - Manage the flow to wastewater and look at all options to minimise throughput

- Create awareness among our staff and suppliers of the potential environmental effect of operations with which they are involved, and how they can work towards minimising these environmental effects.
- Continue to conduct regular assessments of the environmental effects of our wine production to identify potential areas for improvement, and to follow through with programs to achieve these improvements.
